PARIS CAPITAL OF THE ARTS

Paris distinguishes itself as a unique platform for the production, exhibition, discovery and dissemination of contemporary art.

Against the backdrop of an incredibly vibrant cultural scene, its vitality is expressed through the unrivaled quality, scope and diversity of world class museums, cultural institutions, exhibition spaces and private foundations housed in the capital.

This unusually dynamic context is mirrored in the strength and excellence of the exhibition platforms available, not least of which the Parisian gallery community. Home to important international art-world rendez-vous such as Paris Photo and Paris International, since October 2022, Paris also welcomes a newcomer to the international constellation of Art Basel art fairs, Paris + par Art Basel.

The City of Light owes its particular appeal to a tradition of connoisseurship and patronage, and to its capacity to welcome and support emerging artists, as well as confirmed artists from all over the world, some of whom who have subsequently established themselves in Paris on a permanent basis.

As part of a growing ecosystem of public and private institutions supporting artists in their creative process, the Fondation Fiminco goes one step further by establishing a one-of-a-kind complex of affordable accommodation on an unprecedented scale, together with studio space and state of the art facilities to encourage artists in their vocations and provide the context in which to break new ground.

A CULTURAL DISTRICT IN FULL DEVELOPMENT

Located in Romainville, on the edge of Paris, and accessible by metro, the rapidly developing cultural district is housed in the remarkable buildings of former pharmaceutical factories from the late 1940s.
